Much has changed since we last published our list of the 50 most iconic cocktails in San Francisco, back in 2019 before the pandemic struck.

Some of SF’s most beloved bars closed permanently (RIP Bar Agricole, The Saratoga), some remain shuttered temporarily (Slanted Door, P.C.H.), and several new ones have opened (Bar Iris, Mothership).

The city and this list, which represents the more than 200 adult beverages it has to offer, have experienced a big shuffle, but that's all the more reason to get out on the town to explore new venues.
Our selection (in alphabetical order by cocktail name below) reflects the flavor and format trends we’re seeing in the bars. Rum drinks like the Red + Blue at Kona’s Street Market represent sophisticated escapism. Mezcal, in cocktails like Casements’ Peas for Bees, is threatening to overtake bourbon and gin as the city’s most popular mixing spirit. And that “low and no” trend you keep hearing about is everywhere, in the forms of spritzes, cobblers, gazoz, and mocktails made with sherry, amaro, sparkling wine, and non-alcoholic spirits.

Yep, the landscape has changed, so get out there and get reacquainted. Here's a handy map of the bars to help you out. Cheers, friends.
